Our Key Services

We are pleased to offer the following services to support your programs and outreach efforts:

1. Public Service Announcement (PSA) Broadcasting

KT provides PSA dissemination through our multi-platform media network:
- Website
- Facebook Page
- YouTube Channel
- FM Radio (daily broadcasting across Karenni State)

These platforms enable us to reach both online audiences and communities with limited internet access, particularly through our FM radio network.

2. PSA Content Production (Text, Graphic, Audio & Video)

We produce community-friendly PSA content in multiple formats, including:
- Text-based PSA articles for Website and Facebook
- Engaging graphic designs for social media posts
- Radio PSA (audio spots for online and FM broadcasting)
- Short video PSA (awareness videos for digital platforms)

All content is carefully developed to ensure it is clear, culturally appropriate, and accessible to local communities.

3. Multi-language Adaptation

To ensure effective communication across diverse communities, KT provides translation and adaptation of PSA and awareness content into local ethnic languages, including:
- Kayah
- Kayan
- Kayaw
- Yin Ta Lai

This approach ensures your messages reach communities in their own languages and cultural context, improving understanding and impact.
